

**Validation Rules for Debt Flag and Interest Rate Type Fields on Balance Sheet Activity ADD, MOD, REENABLE Requests**

Request Type	If Debt Flag Is ...	Interest Rate Type Is ...	Notes
ADD	Y	Required. User picks from LOV.	
ADD	N	Locked against entry. No update by user.	
MOD	Y on existing value	Unlocked	Debt flag is locked against update. User can never change the debt flag on an existing value from Y to N.
MOD	N on existing value	Locked against entry. No update by user.	If user changes debt flag to Y (assuming the change is allowed by the associated subactivity rule), the interest rate type code field would unlock and be required.
REENABLE	Y on existing value	Unlocked	Debt flag is locked against update. User can never change the debt flag on an existing value from Y to N.
REENABLE	N on existing value	Locked against entry. No update by user.	Debt flag is locked against update. User can never change the debt flag on an existing value from Y to N.
